

Perth Langley

Sustainable Development Policy

Following consideration of the importance of environmental sustainability and a commitment to be a benefit to the local community, Novotel Perth Langley is committed to strive to achieve environmental and social sustainability for its activities which include the accommodation of guests, the service of food & beverages to guests & the provision of facilities to guests of gym, sauna & spa.

Novotel Perth Langley is a 14 storey building containing 253 guest rooms, 6 function rooms, one restaurant & two bars. There are also support facilities to the operation such as kitchens. The hotel is located in the central business district of Perth.

Novotel Perth Langley commits to:

- > Continually improve the environmental and social sustainability performance.
- > Comply with the relevant legislation and other regulation.
- > Give special consideration to the employment of persons living in nearby communities.
- > Give preference to products and services of local origin which do not adversely affect the organisation's operational activities.
- > Prevent the pollution risks
- > Implement and regularly update its Environmental Management System.
- > Appoint a "Green Globe coordinator(s)" who handle the project.

Novotel Perth Langley has taken note of issues/impacts of specific concern in its own operations. These are:

- > Recycling of waste products
- > Energy saving in power, gas & water
- > Staff awareness of environmental issues in the workplace
- > Performance against industry benchmarks
- > Reduction of Greenhouse Gases

We commit to implement actions to reply to the above stakes.

Simon McGrath
Vice President Accor Australia

NOTE: This policy is a public document to be on display, a copy may be given to anyone. Novotel Perth Langley invites staff, landowners, guests and the community to suggest ways to further achieve best practice environmental and social sustainability. This policy will be reviewed by the end of 2008 and subsequently each year.
